

IQAE - Quality Policy

Green International University, is committed to:

- Ensuring excellence in teaching, learning, research, governance, and community engagement through a culture of continuous improvement, accountability, innovation, and stakeholder participation.
- The University strives to align its academic and administrative processes with national requirements, international standards, and societal needs, while fostering student success, ethical practice, research impact, and institutional sustainability.
- At Green International University, quality is a shared responsibility and a continuous commitment to meaningful excellence.
